Mr. Eamon Reilly
Environmental Engineer II
City of Chicago Dept. Of Environment
30 North LaSalle Street, Suite 200
Chicago, Illinois 60602

Re: Village Market
333 East Benton Place
Chicago, Illinois

Dear Mr. Reilly,

This letter is written to inform you of the proposed work at the above referenced project. We are intending to install a total of 5 monitoring points within the area of 333 East Benton Place.

We understand that areas of the development that the project is within have known detected Thorium levels (referred to as the slip areas). The area where the above monitoring points will be installed is not within the slip areas. We will not be performing any work within these areas.

We would be pleased to discuss the above with you at your convenience.

Respectfully Submitted,
Flood Testing Laboratories, Inc.

Glen Hodson
Project Manager

Permit No. 754979345

Date 2-18

Site Address

333 E BENTON ST

Work Location (Describe
exact site location and
attach map)

Nature of Work

Soil BORINGS

Expected Start Date

CITY OF CHICAGO DEPARTMENT OF ENVIRONMENT FORM NO. DOE.ROW.02

Notice is hereby given that the site you have requested a permit for is recorded with the City of Chicago Department of Environment as potentially having environmental contamination on the site and adjacent right-of-way. This environmental contamination could present a threat to human health and safety in connection with work performed at the site, or in the adjacent right-of-way, if proper safeguards are not employed.

A file containing detailed information regarding the aforementioned environmental contamination is available for review at the Department of Environment at 33 N. LaSalle St., 25th Floor, Chicago, Illinois 60602 during normal business hours (8:30AM - 4:30PM, Monday through Friday). Contact (312) 744-7606 for an appointment. This file must be reviewed and the remainder of this form completed before the permit can be issued if the ground is exposed or excavated. Please note that for some locations, additional health and safety procedures may be required by law.

33 N. LaSalle
BASEMENT
2nd
Eamon
Reilly

Please complete the following:

I have reviewed and understand the documents, maintained by the Department of Environment, regarding environmental contamination of the site and adjacent right-of-way. Further, I will ensure that all work at the subject site and adjacent right-of-way, and any monitoring required including but not limited to radiation monitoring, will be performed in a manner that is protective of human health and the environment and in compliance with all applicable local, state, and federal laws, rules, and regulations, especially those pertaining to worker safety and waste management. I will ensure that the results of any radiation monitoring and/or surveying conducted shall be provided to the Department of Environment and the United States Environmental Protection Agency within two (2) weeks of their completion. If any elevated levels of radioactive material are detected, I will immediately contact the United States Environmental Protection Agency at (800) 424-8802.
